Number Corner Checkup 3 Class Checklist page 1 of 2

Student name													
1 completes x out of 40 multiplication facts correctly in 2 minutes	*36–40: 4 pts. 32–35: 3 pts. 28–31: 2 pts. 24–27: 1 pt. 23 or fewer: 0 pts.												
2 completes x out of 21 division facts correctly	19–21: 4 pts. 17/18: 3 pts. 15/16: 2 pts. 13/14: 1 pt. 12 or fewer: 0 pts.												
3 locates 1.7 on a number line	1												
4 rounds 0.47 to the nearest tenth (0.5)	1												
5 rounds $16.79 to the nearest dollar/whole number ($17.00)	1												
6 orders 4 unit fractions from least to greatest ($\frac{1}{5}$, $\frac{1}{4}$, $\frac{1}{3}$, $\frac{1}{2}$)	1												
7a writes 2 fractions to show what part of a 100-grid has been shaded ($\frac{6}{10}$, $\frac{60}{100}$, $\frac{3}{5}$, $\frac{12}{20}$)	1												
7b writes 2 decimals to show what part of a 100-grid has been shaded (0.60, 0.6)	1												
8 identifies 0.4 as equal to $\frac{2}{5}$	1												
9 multiplies 23 x 27 = 621	2												
10 divides 120 ÷ 5 = 24	2												
11 adds $143.38 + $225.17 = $368.55	2												
12 subtracts $51.30 – $20.17 = $31.13	2												
13 solves a story problem that requires adding $0.17 + $0.59 + $1.25 = $2.01	2												
14 solves a story problem that requires subtracting 1.36 – 1.09 = 0.27	2												
15 adds fractions with like denominators ($\frac{2}{5} + \frac{1}{5} = \frac{3}{5}$)	2												
16 adds and subtracts fractions with like denominators ($1 - \frac{2}{3} = \frac{1}{3}$)	2												

* The total possible number of points for each problem is shown.
