

Day 12 Penguin Pairs & Life-Size Penguins (cont.)

Finishing the Penguin Pairs Chart for Day 13

Take time before tomorrow to assemble a Penguin Pairs chart and glue everything down. Print the children's observations out by hand on paper cut to resemble cartoon conversation bubbles, or type them out in large print (font size 48 or larger) on the computer and cut them apart. Be sure to glue the blank Counting by 2's sheets (Blacklines 4.74–4.75) into the upper right-hand corner of the chart as well.

Penguin Pairs: Growing by Twos

2	4	6	8	10
12	14	16	18	20
22	24	26	28	30
32	34	36	38	40
42	44	46	48	50

There are lots of Rockhopper Penguins.
Cesar

Going up, it gets, smaller and smaller.
Tiyana

Diagonally, it has 12 penguins, 10, 8, 6, 4 and the corner has 2.
Samuel

There are 84 eyes.
Sammy

There are 84 feet.
Corey

You can count them all by twos. It's 2, 4, 6, 8, 10, 12, 14, 16, 18, 20, 22, 24, 26, 28, 30, 32, 34, 36, 38, 40, 42.
Maria

The Rockhoppers all have yellow feathers on their heads.
Savannah

Each row has 2 more penguins. It goes 2, 4, 6, 8, 10, 12.
Jessica

It looks like a big triangle.
Dimitrius

I think it's half of a square.
Zack
